~/sshtermy — quick reference

# >_ sshTermy

## QUICK REFERENCE

SSH terminal with an AI copilot · Windows · macOS · Linux

*Idea: Dominik Bornhäußer · v1.0 · As of November 2026*

### ◆ EVERYWHERE

| | |
|---|---|
| Ctrl + Space | command palette: goal, question, actions, hosts |
| F1 | help for the current area |
| ⇧F9 | key bar with explanations |
| F10 | manager ↔ terminal (sessions keep running) |
| F12 | about & update |
| F12 › w / l | what's new / language |
| F11 | full screen (own window) |
| Ctrl + Q | quit (asks if connected) |

### ≡ CONNECTION MANAGER — F10

| | |
|---|---|
| ⏎ | connect |
| n / e / d | new / edit / delete (Ctrl+Z: undo) |
| / | search (name, host, folder, #tag) |
| # | filter by tag |
| o / r / v | new folder / edit / move |
| ← / → | collapse / expand folder |
| - / + | collapse / expand all |
| ⇧↑ / ⇧↓ | change the order |
| t | add a tunnel |
| c | create / copy an SSH key |
| q | edit quick commands |
| m / f / z | broadcast / network scan / schedules |
| w / g | workspaces / open folder as a grid |
| s / y | AI settings / sync between computers |
| i | import (ssh config, PuTTY, MobaXterm, Ansible, CSV) |
| l | session logs |
| a / b | choose color scheme / customize keys |

### ▸ TERMINAL

| | |
|---|---|
| Tab / → | accept ghost text |
| Alt + 1 … 4 | insert follow-up (red ones twice) |
| Alt + 0 | after a failure: why? & fix |
| F2 | **goal mode / agent** |
| F3 | **ask AI** |
| F4 / F5 / F6 | tunnels / files (SFTP) / host overview |
| F9 | quick commands (list) |
| ⇧F1 … ⇧F8 | run a quick command directly |
| Ctrl + F | search the scrollback |
| ⇧F10 | tab to its own window / back |

### ▭ TABS

| | |
|---|---|
| F7 / F8 | previous / next tab |
| Alt + N / Alt + W | new tab / close tab |
| Alt + L | local shell (PowerShell, zsh …) |
| Alt + T | tab list: ⏎ jump, 1…9 direct |
| Ctrl + R | (list) rename |
| Ctrl + D | (list) duplicate |
| ⇧↑ / ⇧↓ | (list) move the tab |
| *right-click* | tab menu · middle click closes |

### ▦ SPLIT VIEW

| | |
|---|---|
| Ctrl + T | choose a layout: 1 … 7 |
| Ctrl + arrow | switch pane |
| Alt + ⇧ + arrow | move the divider |
| Alt + Z | zoom pane / back |
| Alt + I | **type into all panes** |
| = / d / w | (picker) equal / dim others / workspaces |
| *drag title* | swap panes |

### ◦ MOUSE

| | |
|---|---|
| *drag* | select + copy |
| *right-click* | paste · on a link/IP: menu |
| Ctrl + *click* | open URL in the browser |
| ⇧ + *drag* | select inside htop / vim |
| *drop* | upload a file from Explorer/Finder |

### I READING THE SCREEN

| | |
|---|---|
| ● | AI dot green: AI reachable |
| ● | yellow: slow or fallback provider |
| ● | red: AI unreachable (click: details) |
| ✓ × ! | tab: long command done · ! = color rule |
| PRODUCTION | red status line: careful, live system |
| `status nginx` | gray ghost text: Tab accepts |
| `rm -rf` | red: dangerous, ⏎ twice |

# >_ sshTermy

## ◎ GOAL MODE — F2

| | |
|---|---|
| ⏎ | start goal / run step |
| i | only insert (dry run) |
| e / s / r | edit / skip / suggest again |
| x | end the goal |
| ↑ / ↓ | choose a runbook |
| Ctrl+S | save as runbook |
| Ctrl+D | delete runbook |
| ⇧⏎ / Ctrl+J | new line in the goal |
| Tab | mode: step by step → agent → plan first |

## ◆ AGENT MODE — F2 → Tab

| | |
|---|---|
| Esc | pause (typing in the terminal too) |
| ? | give the agent an instruction |
| v | view the agent's script |
| ⏎ ⏎ | **allow a dangerous step** |
| s / r | (at the end) save as runbook / delete scripts |
| c / l | copy result / read all |

**Careful**: only read-only runs on its own · **Normal**: all but danger, sudo, python -c · **Full**: sudo too. Danger always waits. Limits: 25 steps, 15 min, 3 failures in a row. PgUp/PgDn/wheel scroll the panel.

## ☰ PLAN MODE — F2 → Tab

| | |
|---|---|
| ↑ / ↓ | choose a step |
| Space | remove / restore a step |
| e / v | edit step / view script |
| ? | have it re-planned |
| Tab | run: step by step / agent level |
| ⏎ | approve the plan and run it |
| Ctrl+S / x | save as runbook / discard |

## ◆ ASK AI — F3

| | |
|---|---|
| ⏎ | send question (with terminal context) |
| ↑ / ↓ | choose a command card |
| 1…9 | insert command |
| a / c | run / copy |
| z / Esc | explanation on/off / stop answer |
| n / f | new question / follow-up |

## ◇ AI COMPANION — Alt+J

| | |
|---|---|
| Alt+K | level: off · quiet · chatty · coach |
| m / l / r | mute topic / remember / recap |
| p / g | intent: plan / agent takes over |

## ❯ COMMAND PALETTE — Ctrl+Space

| | |
|---|---|
| _type_ ⏎ / Tab | filter · start as goal / ask AI |
| user@host | quick connect (also telnet, COM3, winrm) |
| → / ← | open folder › · ‹ value › next / back |
| "log" / "color" | AI analyzes output / color rules |
| MAC, IP / "topo" | find switch port / topology |
| Esc | back from folder / close |

## ▤ FILES (SFTP) — F5

| | |
|---|---|
| Tab | switch side (local ↔ server) |
| ⏎ / ← | open folder / one level up |
| c / e | copy (upload / download) / open in your editor |
| Space / a | mark / all |
| n / d / . | new folder / delete / hidden |
| x | cancel transfer |

## ⇿ TUNNELS — F4

| | |
|---|---|
| ⏎ | start / stop (click works too) |
| a | start with the connection |
| o | open web service in the browser |
| n / e / d | new / edit / delete |

## ▣ HOST OVERVIEW — F6

| | |
|---|---|
| r / ⏎ | query (CPU, RAM, disks, ports) |
| b | back up switch config + check rules |
| ↑ / ↓ · d · v | pick state · diff · view |
| c · g · t · z | containers · limits · range · large |

## / SCROLLBACK SEARCH — Ctrl+F

| | |
|---|---|
| ⏎ / ⇧⏎ | older / newer match |
| Ctrl+E | error lines only |
| Tab | error list ↔ scrollback |

## ≡ SESSION LOGS — l

| | |
|---|---|
| / | search (output too) |
| Tab / f / s | by time ↔ host / filter / sort |
| z / Z | AI summary / of all matches |
| b | **change report for ticket / docs** |
| x / d | export md·txt·cast / delete |
| a | recording on / off |

## » BROADCAST — m

| | |
|---|---|
| Space / g / a | pick host / folder / all |
| Ctrl+S | check, then ↵ |
| ← / → · z · c | host column · enlarge · copy |
| {{name}} | variable, asked before the run |
| k | AI checks the steps per host |

## ▲ SAFETY

| | |
|---|---|
| ⏎ ⏎ | **red command: confirm twice** |
| y | **production: allow risky · or hold ↵** |
| _command | leading space: not logged |
| *palette* | "Lock now" · "Master password" · "Audit" · "Danger check" |

## $ START & TIPS

| | |
|---|---|
| backup · mcp | full backup · AI clients |
| --no-intro · --debug | no start animation · debug log |
| -window · -tui | own window · always in the terminal |
| tsz / trz | file from / to the server (trzsz) |
| *palette* | "share": show a tab live |
| Fn+1…Fn+= | uConsole: F1 … F12 |
